Design an interactive multimedia product

Students to ensure that they have:

- Produced design documentation
  - Define purpose and audience
  - Plan of the product (site map/plan)
  - House style
  - Navigation system
  - Storyboard
  - Flowchart
- Used Print Screens to evident work

DISTINCTION

- Candidates are thorough in their description of purpose and audience for the product.
- A detailed plan, appropriate house style and effective navigation system is produced.
- A storyboard covering all elements is provided.
- The designs are well structured.
